

Cupori 150 (PlusPrisol)

Cupori 150 (PlusPrisol) is a pre-insulated copper tube that is suited for tap water pipes, heating systems and liquid circulation systems for cooling. The insulation improves sound insulation and reduces condensation and heat loss. Pre-insulated tubes from Cupori are easy to bend. The tube can be soldered or connected with capillary fittings or with press and compression fittings requiring no hot work.

Applications

Product features

- Thermally pre-insulated copper tube
- Temper: Annealed
- Supplied in 25 m coils
- Eliminates condensation and reduces noise
- Enables fast and cost-effective installation
- Can be bent without removal of the insulation
- Connections with capillary, compression or press fittings
- For tap water pipes, heating systems and liquid circulation systems for cooling
